BARWARE

BELUGA

Just as whiskey—a spirit whose quality is strictly regulated —is about the art of distillation, Baccarat is about the art of crafting barware using the finest clear crystal. Be it single malt or cask strength, first-rate whiskey merits the finery of a Baccarat decanter. The lovely circular motif at the base of this decanter creates a dappled effect that makes the experience of drinking all the more multifaceted.

BELUGA TUMBLER

The lovely circular motif at the base of the tumbler is not only an example of stunning craftsmanship, but the geometrical shapes also create a dappled effect. Across different perspectives, the shapes layer and refract the light through the luminous clear crystal, which makes the experience of drinking all the more multifaceted. The Beluga highball and the Beluga Whiskey Decanter beautifully complement the tumbler for a comprehensive bar set.

CHÂTEAU BACCARAT

CHÂTEAU BACCARAT TUMBLER

Inspired by the taste-vin silhouette that sommeliers use, the shape aerates the drink and allows it to achieve a full, smooth flavor. The wide base tapers at the rim, which prevents the alcohol, when swirled, from rising too high within the glass. The shape also allows subtle aromas to diffuse, filling the vessel with a concentration of richness and complexity. Crafted into a stylish and cunning shape, the tumbler adds distinction and elegance to any soirée. The tumbler is a sophisticated addition to a well-stocked home bar, or a gift perfectly suited to the discerning liquor connoisseur. Château Baccarat collection also encompasses wine glasses and a decanter.

The decanter brings to mind a fancy candy jar. An elegant diamond - shaped piece of crystal - the signature of Mille Nuits stemware - functions as its pedestal. The smoothness of the body of the decanter contrasts with the intricacy of the beveled stopper. As carefully carved as an arrowhead, the elegant spire elevates the design of the decanter and christens it with an intricate magnificence. This standout piece is part of the Mille Nuits collection designed for Baccarat by Mathias. The name Mille Nuits is a reference to the 1001 Tales of The Arabian Nights.

MILLE NUITS FLUTISSIMO

The name Mille Nuits is a reference to the 1001 Tales of The Arabian Nights and to the world of the Orient. The -issimo suffix emphasizes the design's overall sleekness. The smooth narrow bowl contrasts with the intricacy of the beveled stem: the detailing travels all the way down to the ridged foot. The two halves are united by the elegant diamond-shaped center, which is the Mille Nuits signature. In addition to the Clear crystal, the Flutissimo is also available in a variety of vivid colors.

MILLE NUITS CANDLEHOLDERS

MILLE NUITS CANDLESTICK 1L

However, the light-scattering properties of gorgeous Clear crystal radiate exquisitely when the glow interplays with the elaborate Mille Nuits form. The rippling silhouette suits both traditional and contemporary settings. The candleholder cup and the lower half of the candlestick are united by an elegant diamond-shaped center, which is the Mille Nuits signature. Remarkably stunning, the beveled detailing goes from top to base. Designed by Mathias for Baccarat, the name Mille Nuits is a reference to the 1001 Tales of The Arabian Nights. The collection also includes lighting (candelabras, chandeliers) and bar and tableware (champagne flutes and plates).

ZENITH

Inspired by the first monumental chandeliers created by Baccarat's Manufacture in the 19th century, the Zénith collection is at the heart of Baccarat's history and present day. ZENITH

ZENITH CANDELABRA 4L PV

The Z  nith candelabra is luminously draped with geometrically cut crystal shapes, amongst which hangs Baccarat's signature red octagonal crystal discreet yet striking. The lacquered aluminum base provides a solid foundation, which not only protects the crystal from any tremors but also gives the candelabra a hint of modern shine. The Zenith candelabra is available in two models that suit either two or four candles (candles not included with the candelabra). Glass hurricane shades may be added for an even more emphatically glowing effect. Philippe Starck revisited the Z  nith collection in onyx crystal, which has proved to be as alluring in black as in Clear crystal.

Creating the piece called for the development of a special furnace to hold the span of the bird's unfolded wings in a single block of crystal. This monumental piece of 33 kg of spectacular dimensions is then cut by the manufactory finest craftsmen ("Meilleurs Ouvriers de France"). Perched on a rock with wings spread, its beak pointed forward and piercing eyes tracking an invisible prey, the Imperial eagle is captured in an imposing posture. L'ENTRETIEN - *CLEANING*

LE LAVAGE DES VERRES

À LA MAIN

- Laver les verres un par un pour éviter les chocs, à l'eau tiède et sans produit abrasif*.
- Rincer sous le jet du robinet en terminant par le pied, verre incliné vers le bas.

AU LAVE-VAISSELLE

- Régler le lave-vaisselle sur le programme fragile à 40° maximum sans aucun détergent. Une température trop élevée risque de produire une réaction chimique qui ternit le cristal et le rend laiteux.
- Bien séparer et caler les verres pour qu'ils ne s'entrechoquent pas.

LE SÉCHAGE, L'ESSUYAGE

- Mettre les verres à égoutter sur un torchon ou du papier absorbant ou essuyer délicatement en maintenant le pouce à l'extérieur du buvant (paraision) et en tenant le verre par la jambe pour éviter une pression trop forte.
- Utiliser toujours un torchon fin en coton non pelucheux ou en lin et ranger les verres dans leur boîtes ou reposant sur leur pied sans qu'ils se touchent.

L'ENTRETIEN DES CARAFES

- Il est préférable de ne pas laisser séjourner de vin dans les carafes et de les rincer immédiatement à l'eau claire après usage.
- Les carafes se lavent à l'eau tiède sans détergent* avec une éponge douce et se rangent toujours sans bouchon pour une bonne aération.
- Pour absorber l'humidité restée à l'intérieur, introduire une grande mèche de papier absorbant pendant une dizaine d'heures.

*En cas de voile, verser à l'intérieur quelques poignées de gros sel et un demi-litre de vinaigre d'alcool. Secouer énergiquement avant de rincer.

WASHING GLASSES

BY HAND

- *In order to prevent damage, glasses must be washed individually using warm water and a non-abrasive product*. We recommend using gentle care dishwasher tablets, which can also be used while washing by hand.*
- *Tilt glass downwards and rinse under the faucet ending with the foot.*

IN THE DISHWASHER

- *Set the dishwasher to the delicate cycle, with a maximum temperature of forty degrees. If the temperature is too high, a chemical reaction may occur that will dull the crystal, producing a milky color. We recommend using gentle care dishwasher tablets, which can also be used while washing by hand.*
- *Separate and wedge the glasses so as to avoid them knocking together. Space the glasses far enough apart so that they cannot knock against each other.*

DRYING AND WIPING

- *Place the glasses on a towel or on absorbent kitchen paper to drain, or wipe delicately while keeping the thumb outside of the body and holding the glass by the stem to minimize pressure.*
- *Always use a lint-free fine cotton towel or a linen towel. Always put the glasses back in their boxes or stand them upright, without touching each other.*

CARE FOR DECANTERS

- *It is best not to leave wine in decanters and to rinse them immediately with clean water after use.*
- *Decanters must be washed in warm water with a soft sponge and no detergent*. We recommend using gentle care dishwasher tablets, which can also be used while washing by hand.*
- *Decanters should always be tidied away without a cap so as to allow for airing.*
- *To absorb any remaining moisture, insert a long strand of absorbent kitchen paper for about 10 hours.*

**If misting occurs, pour in a few handfuls of coarse salt and half a liter of spirit vinegar. Shake vigorously and rinse several times with warm water.*
